

Some of the streets in Ada were never in a worse condition. The time has come when we must decide if Ada is to be a country village or a city, and if a city, work must start!

OUSTED CHURCH MEMBERS SUSPECTED

MILLION DOLLARS FOR FLOOD AREAS PROPOSED TODAY

House Would Extend Relief
To Suffering People of
Deluged Section.

WILL FURNISH SEED

Destitute Farmers May Be
Encouraged Now To
Replant Crops.

(By the Associated Press)
WASHINGTON, May 2.—An additional appropriation of \$200,000 for work on the Mississippi levee to protect them against the flood was made today by congress, an emergency resolution being rushed through both branches without discussion.

(By the Associated Press)
WASHINGTON, May 2.—Appropriation of one million dollars for the relief of sufferers in flooded areas of the Mississippi Valley is provided in a bill reported favorable to the house today by its agriculture committee. The measure introduced by Representative Dennison, republican, Illinois, will be rushed through the house. The senate leaders also have promised to give it immediate consideration.

The expenditure of this fund would be handled by the secretary of agriculture, who would be authorized to use it for the purchase of seed grain for distributing among farmers. Provision also is made for use of the money in public works to give work to those who want it. The house today took another step in the government emergency efforts to check the rampage of the Mississippi river flood in the adoption of a point resolution authorizing the use of \$200,000 out of the present appropriations for harbors and rivers, to be employed in reinforcing and repairing river levees not under federal control.

The resolution, introduced by Chairman Madden of the appropriations committee, was adopted without a roll call.

AMERICA WANTS FRANCE'S PLAN FOR REPAYING

(By the Associated Press)
PARIS, May 2.—The American debt funding commission has informed the French government it will be glad to receive that government's opinion on what it has to offer concerning payment of the interest of the French debt to the United States and the amount of capital.

The matter will be referred to the minister of finance, who is expected to prepare a reply to the American note and take up the work immediately.

Britain Is Ready.
WASHINGTON, May 2.—Notice was sent recently through the state department to all of the allied nations to which the United States made war loans that the American debt refunding commission was prepared to enter into negotiations looking towards the conversion of debts into long time securities.

Formal replies to the notes have not been received so far as could be learned today from any of the nations except Great Britain, which nation has informally expressed a willingness to proceed at an early date and it is considered probable that preliminary negotiations with that nation will be entered into within a fortnight.

Chief Adair Denies He Had Sole Charge Of Choosing Police

Chief of Police Wick Adair denied in a statement issued today that he was solely responsible for police appointments, as was credited to him in a story printed Monday. Two of the five appointments were his, he said, two were made by Mayor Fisher, and the fifth was by agreement between himself and the mayor.

Adair left no intimation of friction among city officials but declared that he had been erroneously given credit for having had complete charge of selecting new policemen.

The city has been thoroughly organized for police protection, officials said, and no trouble is anticipated in executing laws with dispatch.

AMERICAN WOMAN PHYSICIAN DIRECTS RELIEF WORK FOR MONASTIR VICTIMS

Dr. Esther Lovejoy of Richmond, Va., and types of the Monastir citizens injured in the blast.

Dr. Esther Lovejoy headed the expedition of six American doctors from the American Women's hospital which rushed to the relief of the Monastir explosion victims. From Velez, where the hospital is located, the party had to travel over fifty miles of bad roads through the mountains.

HARRELL CHOSEN CITY COUNSELOR

Appointment One of First
Official Acts of New
Commissioners.

Lowery H. Harrell, of the law firm of Busby & Harrell, was appointed city attorney this afternoon at a meeting of the new city commissioners. Harrell's name was submitted by Mayor W. H. Fisher and approved by the other commissioners. He will take office at once, succeeding Thomas P. Holt, who was filling the unexpired term left by the resignation of J. W. Dean.

Harrell is a graduate of the University of Oklahoma law school and has had considerable practice as a member of the local bar association.

Police appointments made recently were also approved by the board. This was the first regular meeting of the new city officials, the informal meeting yesterday morning when they were sworn in having been adjourned until today.

Rush Investigation Into Coal Troubles To Rebuild Industry

(By the Associated Press)
WASHINGTON, May 2.—Investigation by the commerce department into underlying differences in the coal industry, such as interests of employees and irregularities of production, is being expedited, it was learned today, with a view to securing data which might be used in the proposed administration plan for reconstructing the entire coal industry.

Investigation of administration plans for meeting the coal strike situation, as developed today in high official circles, indicates that they did not consider any specific proposal for settlement of the present miners and operators' controversy, but rather were concerned with remedies for fundamental difficulties underlying the general coal situation.

OKLAHOMA WEATHER.

Partly cloudy tonight and Wednesday, somewhat unsettled in east portion.

Uniformed Cops Keep City Court Without Victims

"All is quiet along the Potomac and there is peace in Warsaw."

This was the report of the new police department this morning following the first day and night of duty. Not an arrest was made and no calls were turned in during the past twenty-four hours, Chief Adair said this morning.

Uniformed policemen took the oath of office Monday morning and immediately were detailed to duty. A plan for covering the city in the most efficient manner with the new force has been worked out.

Members of the department started their second day's work today with the expectation of increased business. All the new "cops" are privately hoping to be the man to "bring in the first." Mayor Fisher, municipal judge, will then be given his first case in police court, which will go down on the records and head the list of many more anticipated during the next two years.

IRISH BANDIT! IN HEAVY RAIDS

Thirteen Bank Branches
Robbed By Reckless
Bands of Youths.

LONDON, May 2.—Thirteen branches of the Bank of Ireland were raided by the outlaw forces of the Irish Republican Army yesterday, late reports adding those of Valhalla and Claremore, County Mayo, to the list.

The sums taken were not stated in four cases, but according to reports the other yielded nearly 100,000 pounds sterling. The raiders have receipts for amounts taken. The Dublin correspondent of the Daily Mail says bands of youths have been organized in groups in western Ireland and have started out to seize houses owned by rich nobles and that some of the owners have arrived in Dublin. Railroads were cut and traffic held up at three places yesterday.

A dispatch to the Times says the independent forces, at Rapaoe, County Donegal, have been re-inforced from Cork and have commanded several buildings ordering the food in shops seized. They have mounted machine guns in the Hasonic Hall.

MAY DAY STUNTS AT COLLEGE ARE DELAYED A WEEK

Weather Man Interposes
Objection to Annual
Festival Today

TO BE HELD MAY 8

Out of Town Princesses Are
Disappointed When
Verdict Given.

Oklahoma's weather man had a sour disposition today and handed out a weather bill that not only dampened the spirit of those interested but forced the postponement of the entire May Day festivities at East Central College until next Monday.

After being in a bad humor for more than a week, the old codger today tried to get a little more joy out of life and caused several young ladies from adjoining cities, who were selected to represent their respective high schools as princesses in the May Day fete, to make a trip here only to be disappointed.

Miss Anna Weaver Jones, who has charge of the event, stated today that on account of a soaked ground and an unfriendly atmosphere, it would be impossible to hold the event today. The entire affair will take place in the open, and this would make the dancing and other numbers impossible, she said.

Stage Was Prepared.
The stage for the crowning of the queen had been erected, the remainder of the costumes arrived yesterday and final dress rehearsals were held today.

About thirty young ladies were due to arrive today, but some of them received word before they left home not to come to Ada, thus avoiding a useless trip. Those who came were entertained at homes of the college girls.

Because of inclement weather and the postponement of the May festival, a reception which was to have been held tonight by members of Sigma Sigma Sigma sorority at the college has also been postponed. It will be given next Monday evening from 8:30 to 10:30 in the home of Mrs. R. W. Simpson, on south Townsend avenue in honor of the visiting princesses.

LOCAL MASON IS STATE'S OLDEST?

Oklahoma City Man Admits
Ada Veteran Has Longer
Service Than He.

Is Captain Sam H. Hargis, local Confederate veteran, the oldest Mason, from the standpoint of the time he has been a member of the lodge, in Oklahoma?

Hargis' belief that he has a clear title to that honor was strengthened today by the receipt of a letter from S. C. (Daddy) Armstrong, Oklahoma City, conceding that the local man has been in the lodge just two months and two days longer than he has. Armstrong was made a Mason, he says, on Oct. 10, 1863. Hargis became a member on August 8, of the same year.

"With the exception of a slight attack of rheumatism my health is good. Will be 80 years old next month," Armstrong said in his letter to Hargis.

"Would like to meet you at the Guthrie consistory or at India Shrine just any old time and wrestle you for \$10," the Oklahoma City veteran bantered. He is a Union Army veteran and formerly lived in Cincinnati, Ohio. Armstrong's membership is now in Oklahoma City No. 36, A. F. & A. M. He is also a Knight Templar, Consistory and 33rd Degree Mason, and a Shriner.

In an article published recently in the Daily Oklahoman, Armstrong laid title to the claim of seniority in Masonry in the state. Hargis, in an answering challenge, good naturedly bantered his Union Army opponent to a footrace, conceding, however, that "since I was never able to catch you during the Civil War, I can hardly expect to now."

WHICH OF THESE WILL GERMANS ELECT AS SECOND PRESIDENT OF REPUBLIC?

German presidential candidates. Above, left to right: Dr. von Hieber and President Fritz Ebert. Below: Admiral von Scheer and Dr. Adolf Damaschke.

(By Central Press)
BERLIN, May 2.—Germany's first real presidential election is soon to come and the fate of the republic and republican institutions throughout Europe hangs in the balance.

The result of the election will indicate whether the foundation of the republic is on rock bottom or political quicksand.

A successor to President Fritz Ebert is to be selected. Herr Ebert wants to be re-elected. He has been the "strong man" of the republic since the first stable government was established after the armistice. His regime has withstood the most treacherous crisis.

Ebert, by trade a harness maker, has continued to live in the same plane as he did before he was elevated to the presidency.

One of his opponents is Admiral von Scheer, one of the naval chiefs under the former kaiser. It is believed that Scheer represents the royalist faction which is struggling for a return of the Hohenzollerns. However, he professes to show a conviction that democracy is the best form of government for Germany. The junker contingency is supporting Scheer.

INTRODUCING 1922 Graduate OF ADA HIGH

Clarence E. Fishbeck, member of the senior class at Ada high school, will be one of the half hundred graduates this month. Clarence is completing his third year of work at the local school, beginning here as a sophomore.

Although a prominent figure in school activities since his enrollment, he is now completing his best year's work, being a member of the band and orchestra and other school organizations. He is planning to take up the study of civil engineering after completing high school, and expects to enroll in the A. and M. College at Stillwater next year.

FIVE ARE KILLED IN MAY UPRISING ROME SAYS TODAY

ROME, May 2.—Five deaths and about 100 wounded made up the May Day role of casualties in Italy. None of the disorders reached any degree of magnitude. Deaths occurred in Confal at Perugia, Para, Ferrara Chiaraville and Imola. The communists invaded a monarchical club at Leghorn. Two socialist halls at Pisa were set on fire. At Imola ten persons were wounded in disorders when the communist leaders, Bombacci, tried to speak.

Notice Masons

School of Instruction will be held tonight, beginning at 7:30. Bailey Bobbitt is in charge. All who are interested are invited to attend, especially officers. Visitors are extended welcome.—F. R. LAIRD, W. M.

COUNTY TO TAKE STEPS IN PROBE OF LAWTON ROW

Thirty Former Churchmen
Called for Inquiry
In Kidnaping.

WILL ENTER CHARGES

Investigation To Lead To
Prosecution Says the
County Attorney.

(By the Associated Press)
LAWTON, May 2.—The Lawton Presbyterian church controversy got outside the confines of the church today. County authorities took a hand.

A civil court of inquiry was under the direction of County Attorney Fletcher Riley, who announced he would go to the bottom of the whole case in an effort to determine the identity of the three men who last Saturday night abducted the pastor the Rev. Thomas J. Irwin, and threw him into ditch outside Lawton, half conscious and securely tied and gagged.

The county attorney declared he would inquire into every phase of the case. Filing of criminal charges, he said, would depend upon the outcome of the investigation.

The county attorney started about his investigation today by preparing subpoenas for about thirty persons who had been suspended by the church of which Rev. Irwin is pastor. They were thrown out by the church session, or executive board, with the sanction of Mr. Irwin, and have been aligned against the minister in a movement to have him expelled from the Lawton pulpit on formal charges drawn up by the governing El Reno presbytery.

Pastor's Foes Questioned.
County Attorney Riley said all subpoenaed members or anti-Irwin factionists, would be interrogated about the abduction of the pastor and it was indicated that each would be asked to explain his whereabouts on the night the alleged slugging and abduction took place.

Pastor Irwin and three members of the church session were called in last night and questioned when County Attorney Riley decided to convene the inquiry court.

Their testimony was kept secret and it was not known whether Mr. Irwin has any clue as to the identity of his abductors. He has publicly stated that he did not recognize the three men.

Speculation today centered upon whether Mr. Irwin would submit to trial before a commission appointed by the El Reno Presbytery on charges of "conduct unbecoming a minister." The trial is set for May 9.

The pastor asserted he was going to carry his case before the Oklahoma Synod and intimated he planned a strategic move.

CHARGE OF GRAFT UPON DAUGHERTY LAUNCHED TODAY

(By the Associated Press)
WASHINGTON, May 2.—Reports that Harry M. Daugherty, now attorney general, had received a fee of \$25,000 from Charles W. Morse, New York shipbuilder, for obtaining Morse's release in 1912 for the Atlanta federal penitentiary, were repeated in the senate today by Senator Carraway, democrat, Arkansas, and denied by friends of the attorney general.

The Arkansas senator said the report was based "upon public information." Senator Watson, republican, Indiana, said he had talked with Daugherty about the report and it was untrue. Senator Moses, republican, New Hampshire, broke into the discussion to state that William G. McAdoo, former secretary of the treasury, had received "large fees" from Mr. Morse in connection with his information which was recently made the basis of indictments in the federal court here.

ORGANIZATION WOULD CURB GOVERNMENT POWER

ST. LOUIS, May 2.—Formation of an organization to fight centralization of power in federal government was announced here today. The purpose of the organization, it was explained, is to curb the power of the federal government by constitutional amendments in levying taxes upon the people of states except in time of war or to retire war debts.

BIBLE THOUGHT OF TODAY

GOD'S WORD STANDS:—The grass withereth, the flower fadeth; but the word of our God shall stand forever.—Isaiah 40:8.

BOTH SIDES LOSE.

Looks like Oklahoma and Texas are both left out in the cold in the boundary suit. Last year the supreme court of the United States decided that the south bank of the Canadian river is the boundary between the two states. Then came the question of what is really the south bank, the stream as it is now or it was a century ago. In a preliminary decision handed down Monday the court says that from the middle of the river south the bed belongs to neither state, but to the national government. The case is like the one in the old readers in which two boys called in another to decide the ownership of a very fine nut which one had picked up but which the other claimed by right of having seen it first. The referee broke the shell into two pieces, handed each disputant one and kept the kernel for his trouble in the matter. It no longer matters to Oklahoma where the south bank is located.

GOMPERS OPPOSES RUSSIAN RECOGNITION.

Samuel Gompers is bitterly opposed to the recognition of the soviet government of Russia. He denounces the Lenin-Trotsky regime in unmeasured terms and says to recognize it would be a base betrayal of civilization. The Russian system is proclaimed as a government by the workers but Gompers does not take any stock in that sort of talk. He wants none of it in America. Gompers has never taken much stock in socialism, and as a result has been fought at every meeting of the American Federation of Labor which the socialist element has long aspired to control. Gompers knows that communism as sought to be practiced in Russia would be the ruin of America and that the laboring classes would be among the first to suffer, hence he refuses to be swept away by bolshevik propaganda.

HANDS ACROSS THE SEA.

The meeting of Miss Alice Robertson, M. C., and Lady Nancy Astor, M. P., was a striking illustration of changing conditions in the world. Miss Robertson is the only woman member of congress and Lady Astor the only one of her sex in the British parliament. Both are Americans. Miss Robertson was born in the Indian Territory and went through all the hardships of pioneer life, except during the few years she attended college in the East. Lady Astor was born in Virginia and grew up surrounded by luxury and all the comforts wealth could buy. One remains in her native state while the other married an expatriated American in England. However, both have attained to high position and have set a new mark in the political history of the two nations. It was this fact that brought them together in a meeting that may well be termed hands across the sea.

GREETINGS TO NEW OFFICERS

The News extends its greetings and best wishes to the new city officials. We believe they will have the backing of the best elements of citizenship at all times and that they will make every effort to give the city a strong and successful administration. We have no doubt about their good intentions and are hoping for results as good as their intentions are. In order to get these they must have the support of all classes who have the best interests of the community at heart.

Some of our exchanges are running a series of articles purporting to be the confessions of a United States senator in which he admits that although the people generally regard him as a highly successful man he recognizes the fact that he is a colossal failure. His name is not given for obvious reasons. If this is real stuff it is something new under the sun, for we never before heard of a senator who did not regard himself as a bulwark of the nation.

A KU KLUX CANDIDATE.

In the face of all the talk about the Ku Klux Klan in Texas, and the statement of Senator Culberson that he is opposed to the Klan, R.L. Henry of Waco, who seeks to wrest Culberson's toga from him, has come out flat-footedly in defense of the organization and declares he is a member. He says they can't bluff him on that issue if they want to make it an issue. Nothing the matter with Henry's nerve, anyway.

The Genoa conference bids fair to go the way of most European conferences. When a lot of diplomats gather around the council table every fellow has a knife up his sleeve and knows the others are similarly provided. It is just a matter of watching for a chance to insert said weapon neatly between the ribs of the fellow across the table before he can make a similar brotherly move.

The pilgrimage to Washington of wives and children of men imprisoned for offenses against the war laws of the United States is another reminder of the fact that the innocent often suffer as much or more than the guilty. Knowing that his family must endure hardship and privation because of his misdeeds should be a powerful deterrent against any man walking into trouble but still the tragedy goes on.

WE'LL SAY HER HAT'S IN THE RING!

The Forum of the Press

That "Wild Oats" Fallacy.
(McAlester News-Capital)

E. C. Wolcott, for many years a boy worker with the Y. M. C. A. made a sensible plea a few days ago in Oklahoma City. He asked that all good persons assist in stamping out the fallacy that is current that boys must sow "wild oats" some time, so sow them young.

Habits are formed at an early age. The boy who "sows them" young will as a rule "sow them" as long as he lives. The boy scouts organization and the boys units of the Y. M. C. A. are doing wonderful work along this line. Boys need proper direction and an opportunity to acquire interests that are wholesome.

Boys are restless and inquisitive. It is far better that their energy and thought be directed into healthy channels than to give them idleness in which to hatch the idea of sowing wild oats while young.

Any man who plants the idea with a boy that he has so much wild life to lead before he is ready for the estate of manhood is a vicious and unprincipled citizen. He is more of a menace to the community than the out and out criminal. The criminal may be captured and put behind bars. His activity stops there.

But one wrong idea planted in the mind of a boy, who as a rule is willing to listen to older and successful men, has untold potential evils. It ripples like water in ever widening circles. Right thinking men instead of laughing, should make an effort to stamp out the spread of that fallacy that boys must "sow wild oats." It is not true.

Harrell and Fields.

(Hugo News)
Senator John W. Harrell in a message to some of his republican friends in Oklahoma denies that he is opposing the gubernatorial aspirations of John Fields. Despite the message it is hard to believe that Harrell is doing anything in the field candidacy.

The activity of certain Harrell leaders of the state, particularly in Oklahoma county recently, indicates that Senator Harrell is in the fight and with his forces aligned against Fields. In the Oklahoma county case a bitter fight developed on the indorsement of Fields. This was overcome by the Fields supporters but the movement was sufficiently embarrassing to cause trouble and indicate the real line up.

Coming back to the telegram it is hard to conceive of an answer that a republican senator from Oklahoma might give other than the message sent to Oklahoma yesterday, as a reply to a request for a definition of his stand. Harrell like any other politician with the matter checked up to him, would admit frankly that he is not against Fields.

But as a matter of cold blooded politics his entire organization may be working to quite the end suspected by many Oklahoma observers.

Delicious Foods.

(Bartlesville Examiner)
If you work sitting at a desk all day, you should eat more meat than the man who saws wood or carries a hod.

Who says so? Dr. Thomas M. Carpenter, physiological chemist of a Boston nutrition laboratory.

The desk worker, Carpenter says, needs more meat to keep his warm. Thus he artificially secures the necessary heat which the bod-carrier and wood-sawer generate by muscular effort.

That food, in the last analysis, bears the same relation to the body that coal does to a furnace. Heat is the ultimate object.

Can a stenographer live on chocolate sundaes and candy? Some of them come close to demonstrating it in the affirmative.

Back of all this is heavy science, expounded by Dr. Carpenter, as follows:

A normal stenographer, during the course of a day, uses up 2222 calories. That is the average. The girl who types by the touch system needs fewer calories than the typist who attacks the keys like a chicken picking up corn, and accordingly should eat less.

Gum chewing uses up a terrific amount of energy, which requires heavier eating than in the case of a chicle abstainer.

A lunch, consisting of a chocolate sundae and some candy, furnishes the typist 1500 calories, or more, than a third as much as a hard-working carpenter requires daily.

Topping off this interesting discourse, Dr. Carpenter figures scientifically that a sundae, if thoroughly absorbed by the system, has a caloric heating power sufficient to raise a ton of coal three stories.

While it might be wise for people without cast-iron stomachs to take some of this food science with a grain of salt, it recently was expounded as gospel by Dr. Carpenter before the Harvard Medical School. The important fact is that scientists are finally beginning to get at "original truth" in the matter of diet, and that some of the accepted notions about food values may be due for an explosion.

Until the investigation is nearer completion, a good average age rule is to keep in mind the old saying that most of us dig our graves with our teeth.

LAITY'S VIEW OF SUNDAY SERVICES TO BE DISCUSSED

CHICAGO, May 2.—Subjects to be discussed at the seventieth annual meeting of the Western Unitarian Conference here May 14-16 will include "The Laity's View of the Sunday Service," "The Renaissance of the Laymen in Religion," and "Revolution or Evolution—What Can We Do?" A convention of universities will be held simultaneously, and following the two conventions the Unitarians and Universalists will unite with others in a convention of the Federation of Religious Liberals. A fellowship dinner will be shared by Unitarians, Universalists and other Liberals May 16.

The general theme of the Unitarian conference will be "Spiritual Statesmanship." Rev. Robert S. Loring of Milwaukee will preach the annual sermon Sunday evening, May 14, on the topic, "Revolution or Evolution—What Can We Do?" Monday evening "The Social Nature of the Spiritual Gospel" will be discussed by Rev. Frederick M. Eliot of St. Paul, Minn., and Rev. Horace Westwood of Toledo will speak on "The Distinctive Message of Liberal Religion."

The Laity's View of the Sunday Service" will be considered Monday, forenoon, the speakers including Prof. Herbert F. Goodrich, dean of the law department of the University of Iowa. Monday afternoon laymen will present "The Laymen's View of Church Management and of Church Publicity," and Rev. August P. Record of Detroit will speak on "The Renaissance of the Laymen in Religion."

"The Religious Appeal to Youth" will be dealt with Tuesday by Rev. Edward Johnson of Urbana, Ill., and Rev. Alfred E. von Still of Menominee, Mich. Misses L. Louise

Henderson and Florence Hawley will speak the same day on "How the Minister Can Help the Young People's Society and the Sunday School."

The closing meeting Tuesday evening will be addressed by Horace Bridges of the Chicago Ethical Society and others.

INTEREST RUNS STRONG IN REVIVAL AT ASBURY

Interest in Asbury Methodist church revival, which has now been in progress for several days, is increasing steadily. Rev. R. E. Brothers, pastor, announced today. Good services Sunday were held and attendance is on the incline, he declared. There have been seven professions of faith and five additions to the church.

Rev. J. E. Bryan, Roff, is doing the preaching. His subject for tonight will be "The Judgment." The public is cordially invited to any service.

Scandal Suit Upon Gov. Russell Thrown Out of Court Today

(By the Associated Press)
JACKSON, Miss., May 2.—The damage suit filed against Governor Russell, alleging seduction, was dismissed this afternoon by Judge Edmund Holmes, on the grounds of

Famous Beauty Regains Health and Strength through Ironized Yeast

"A Wonderful Help in Keeping My Figure Perfect" Says Beautiful Elsie La Bergere

"It was by purest accident that I picked up a package of Ironized Yeast just as I was about to give up the stage for a long needed rest. The results that it brought in me proved that it was just what I needed. For today I actually feel like a new born woman!"

Such is the amazing statement of Elsie La Bergere, known to vaudeville lovers all over the continent for the beauty of her figure. "My stage work," continued Miss La Bergere, "put such a severe strain on my nervous system that every performance became a hardship. I lost my appetite, and always felt tired and worn-out. Then I discovered Ironized Yeast—and I really cannot give enough praise to it. I find it keeps me absolutely fit in every way, and that it is a great help in keeping the shape of my body in wonderful condition. Ironized Yeast has a permanent place of honor in my traveling bag."

How New Process Makes Yeast Doubly Effective

The reason IRONIZED YEAST brings such remarkable results is because it embodies a new scientific process which enables yeast to bring its great benefits often in just half the usual time. Yeast alone is good, but tests show that it needs some other agent in order to quickly convert its wonderful health-building elements into firm tissue, rosy cheeks and sparkling vitality.

Everyone knows that iron is of great value in converting our food into living cells and tissue. So working on this problem, our scientists finally discovered the wonderful process of ironization—the process through which the combination of yeast and iron becomes 100 per cent efficient.

Do not think, however, that any combination of yeast and iron will do. Yeast brings its best and quickest results only when it is treated through the scientific process of ironization. And this process is embodied only in IRONIZED YEAST, the one scientifically correct yeast treatment.

Money Back Guarantee

If you need more flesh—if you are pale, lacking in energy—or if your complexion is blemished by humiliating skin eruptions—try IRONIZED YEAST at once. Very likely you will be actually astonished at the improvement shown in you even after the first 48 hours. Go to your druggist today. Satisfactory results are guaranteed from first package or money back. \$1.00 a package.

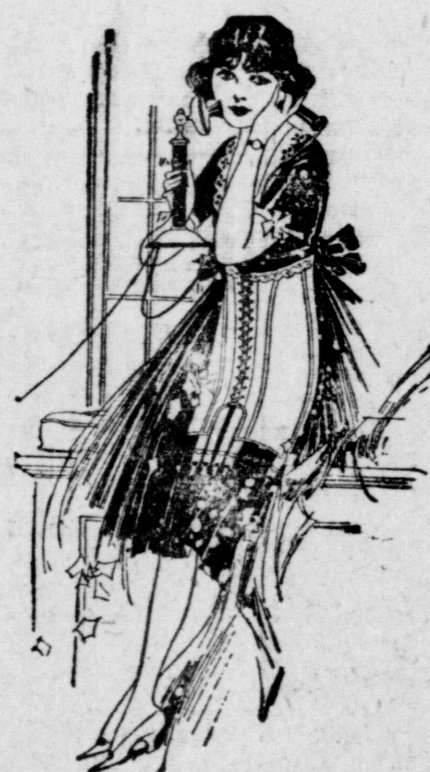

FREE! While IRONIZED YEAST is sold at all druggists on our Satisfaction Guaranteed basis, those who wish may try it absolutely FREE. Simply mail the coupon. It will bring you the famous Three Day Trial Treatment. The results, even from this short test, will very likely surprise you. Send for it now.

Modart Corsets Have Always Been Comfortable

The recent protest against uncomfortable corsets, expressed as it was, in the so called "corsetless" fad has borne fruit.

The stiff, uncomfortable corset of yester year is rapidly disappearing and its place is being taken by more scientifically designed and extremely comfortable corsets.

MODART CORSETS Front Laced

Leading in this respect is the fashionable Modart Corset, the product of a leading maker who for years has designed corsets with the comfort element foremost in mind.

—\$3.50 to \$12.50

A fitting by our expert corsetiere will prove to you that the Modart Corset is as stylish as it is comfortable.

Clever Brassieres, these to fit your own individual requirements: Brocade, net, crepe de chine, or coutil styles complement your Corset, or are the new Corset. Brassieres that dispense with the corset. New Brassieres that conform to the new silhouette, and have exquisite trimmings. There is a style for every figure.

Oldest Father Will Present Bouquet to Oldest Mother, Plan

A feature in connection with the First Baptist church Sunday school rally for 1,000 next Sunday will be the presentation of a bouquet by the oldest father present to the oldest mother present, and another by the youngest father to the youngest mother present.

This attraction was announced this morning by Rev. C. C. Morris, pastor of the church.

"If any one knows of any old couple who want to come, call the pastor or Mr. Rilling. They will arrange for a car to be sent after them Sunday morning," Mr. Morris said.

The Baptist Sunday school is planning to have 175 in the beginners and primary department; 175 in the junior department; 150 in the intermediate department; 250 in the senior and adult department, and 250 in the men's Bible class at the McSwain theatre.

Sunday will be observed as Mother's Day at the church.

BRITISH OIL COMPANY TO TAP RUSSIAN FIELD
LONDON, May 2.—A gigantic industrial agreement was signed on Sunday at the economic conference by representatives of soviet Russia and the Shells group of the British oil company, telegraphic information from the English correspondent of the Evening News says.

Under the agreement, he wires, the Shells group will control all sales, and, under certain conditions all production of oil in every part of Russia for an agreed period. The contract may be renewed by mutual agreement.

GENOA, May 2.—The Genoa correspondent for the London Evening News in a dispatch to his paper this afternoon quotes Col. Doyle, representative of the Shell group of the British oil companies and Royal Dutch interest, as denying that any industrial agreement was signed here Sunday between these interests and the Russian soviet government as has been reported.

Ruhr correspondents here say the Russian delegation to the economic conference also flatly deny having made any concessions to the Shell interests.

LIONS CLUBS TO PUT LIBRARIES NEAR TO PUBLIC

That the Lions Clubs of Oklahoma will make an effort to put libraries in the reach of every one, was the information brought back from the district meeting at Oklahoma City last week and announced at the semi-monthly luncheon today. Libraries are to be established in each county and made accessible to the entire citizenship.

Hon. Tom D. McKeown, W. E. Harvey and President C. E. Cunningham reported on the convention, and pronounced it one of the best ever held in the state. Most of the delegates were business men who really want to do something worth while in the way of helping others. The clubs of the state are active in making their communities better places in which to live.

An entertaining committee, consisting of Langford Shaw, L. T. Walters and C. C. Morris, was appointed to provide the entertainment for the next meeting.

The meeting was well attended and good fellowship and brotherly love reigned. M. M. Harwell had as his guest J. M. Gale of Oklahoma City, who is investigating the business conditions and outlook for this section.

SOCIETY
May Princesses Arrive.
Princesses from high schools of the district who arrived in the city today to participate this afternoon in the annual May Day fete of the East Central Teachers college, were disappointed as the event has been postponed until Monday of next week. A large number of the young ladies did not come.

Those who arrived today and who will be entertained by the Pi Kappa Sigma sorority of the college with a breakfast at the Harris Hotel Wednesday morning are: Lois Ellis, Shawnee; Dorothy Pysatt, Pauls Valley; Cecil O'Gee, Maud; Loreta Dority, Coalgate; Lydia Henson, Francis; Willie Mae Martin, Calvin; Vera McAllister, Seminole; Tess Harrison, Stonewall; Gladys Franklin, Davis; Lula Clark, Wewoka; and Ella Mae Springer, Holdenville.

Children Show Men Where Father Lost Life Beneath Auto

(By the Associated Press)
GOLDENDALE, Wash., May 2.—Nine year old Mabel Lindberg walked into the station at Wahkikous yesterday with her three year old brother, Clarence, in her arms and informed residents that her father, Eli P. Lindberg, had been hurt in an automobile accident.

Investigators found Lindberg dead beneath his car at the bottom of a canon. Apparently the brakes had failed to hold when the car got off the road and rolled down a steep canyon wall. Lindberg had put the children out of the car for safety when he started up an unusually steep pitch of road.

Three Trainmen Are Killed When Boiler of Engine Explodes

MAYERSDALE, Pa., May 2.—Three trainmen were killed and a fast freight on the Baltimore and Ohio railroad was wrecked at Fair Hope, 7 miles east of here early today, when the locomotive blew up. The locomotive, one of the most powerful of the system, was hauling a freight from Cumberland, Md., to Pittsburg. Without warning, the boiler let go, and all members of the crew on that portion of the train were killed. Ten cars immediately following the engine were thrown from the track and catching fire, were destroyed.

White Low Shoes

For End-of-School Activities

With the advent of May one is reminded that school has only a few weeks more to run. May is thought of in terms of end-of-school activities; May Fetes and graduations are some of the principal events. These events most always demand white shoes to be worn with white and frilly frocks. Here you will be enabled to choose from a large line of styles in Pumps and Oxfords.

White Ones

For Women and Misses

White one-strap Pumps and Lace Oxfords with military heels; leather sole and heels; for \$4.95

White Lace Oxfords; plain capped toe, flat leather heels; for \$4.95

Two-strap Pumps and Lace Oxfords; with steel arch supports, leather soles and rubber tap military heels; for \$6.50

Women's White Recreation Oxfords

Women's White One-half inch heels; canvas uppers; rubber heels and soles; Lace Oxfords. Just the Oxford for tennis or recreation \$1.75

Children's Sister Sue Pumps, \$1.19

Rubber Wedge Flat Heels and Rubber Soles with canvas uppers; and one strap; all sizes; for only \$1.19

New Low Shoes for Children Black and Brown

Black and Brown Lace Sport Oxfords; kid leather; flat heels \$2.49 —and \$2.95

Black Patent One-Strap Plain Capped Toe; rubber tap heels \$3.45

Many other styles and kinds for the children between ages of 5 and 15, black and brown patent, calf and kid, some one and two strap Pumps and others in Oxfords, flat and wedge heels; some Sport Oxfords and Pumps; all very moderately priced; at \$1.45 to \$3.95

Shaw's DEPARTMENT STORE

"They Gave Me That Lovely Stove"

Wouldn't it be fine to be able to point to a beautiful stove, the very latest model, installed in your kitchen and happily say: "They gave me that stove".

You can do this. You can get from us, FREE, a beautiful, all-white enameled

DIRECT ACTION Gas Range with LORAIN OVEN HEAT REGULATOR

All you have to do is show us that you have in use the oldest model gas stove in town. If you have, we will give a brand new, latest type stove, for it in exchange. We will deliver and connect it free, ready for use. An even swap without any obligation on your part.

The stove we are going to give away to some lucky person (maybe it is you), who has the oldest gas range in town, is on display in our window. Look at it and see what a wonderful offer we are making.

This "Direct Action" Cabinet Range is all white enameled, as beautiful as finest china. It is as easy to keep clean as a plate. It is the kind of stove that is so fashionable nowadays and is found in the finest kitchens. It has the famous "Direct Action" principle of construction. We will gladly demonstrate to you why the "Direct Action" is such a wonderful baker and gas saver. We will show how the oven heats instantaneously. How you can put your baking in the cold oven before lighting the burners.

The "LORAIN" Oven Heat control means

Your every baking is the equal of your "luckiest day". You can cook a whole meal in the oven while enjoying yourself miles away. You use your oven for canning—the wonderful new way that is so easy, and preserves the fresh-from-the-garden taste.

Step to our Stove Department and fill out a card in the "Oldest Range Contest" giving number, make of range, and year manufactured.

Remember, it's an even swap, no obligations on your part. Don't delay. Range will be given away May 9th.

187 U. S. MINERS KILLED IN MARCH STATISTICS SHOW

WASHINGTON, D. C., May 2.—Accidents at coal mines in the United States killed 187 men in March of this year, according to the United States Bureau of Mines. An increase of 36 per cent is indicated over the figures for March, 1921, when 137 coal mine fatalities were reported. The fatality rate, based upon an estimated production of 58,950,000 tons, was 3.17 per million tons mined, as against 3.62 for March last year when the output was 37,798,000 tons. The increase of 56 per cent in the tonnage for March, 1922, was obviously due to consumers' efforts to increase their stocks of coal against the strike scheduled for the first of April.

Statistics prepared by the bureau of mines during the past 9 years (1913-1921) show that the month of March has averaged 201 coal mine fatalities with an average production of 48,039,000 tons indicating a fatality rate of 4.18 per million tons mined. The rate for March, 1922, therefore, represents a decreased fatality mark of nearly 25 per cent.

States showing an increase in fatalities in March, 1922, over the same month last year were Colorado, where the increase of 19 was due mainly to a single disaster; Indiana, with an increase of 2; Iowa; 3; Pennsylvania (bituminous) 15; Tennessee 2; Utah 2; Oklahoma 1; Washington 2; West Virginia 15; and Wyoming 1. Reductions in the number of men killed were as follows: Alabama 2, Kansas 1, Kentucky 2, Montana 2, North Dakota 1, Ohio 1, Virginia 1, and Pennsylvania (anthracite) 2.

On March 24, an explosion of gas and dust, supposedly caused by an electric arc, resulted in the death of 17 men at the Sopris mine, Sopris, Colorado. There was a noticeable increase in the number of explosions in the first quarter of the present year. There have thus far been five major disasters with a loss of 66 lives, as compared with five similar disasters and a loss of 34 lives during the whole of 1921.

FAST GROWTH OF STATE IS SHOWN IN LATE REPORT

(By the Associated Press)
OKLAHOMA CITY, May 2.—The growth of Oklahoma in the last eleven years is reflected perhaps nowhere more strikingly than in the records of the state auditor's office. There, through the annual statements beginning with 1911 and concluding with 1921, is seen an almost constant rise in the valuation of property in the state and a similar increase in the amount of appropriations by the legislature and bond accruals.

A tabulation of these figures made by direction of Frank Carter, state auditor, show that in 1911 the valuation of property in Oklahoma was \$1,326,840,833. In 1921 it had risen to \$1,739,835,008, an increase of \$412,994,165. Appropriations and bond accruals in 1911 were \$2,537,846 and in 1921, \$8,381,531.95, a difference of \$5,843,685.99.

The state tax levy during the period ranged from 1 mill to 3 1-2 mills the highest being in 1913 and 1919, and the lowest in 1919.

The reports of the auditor's office by years are as follows:

For the year 1911: valuation, \$1,326,840,833; appropriations and bond accruals, \$2,537,846; levy 2 mills.

For the year 1912: valuation, \$1,193,655,846; appropriations and bond accruals, \$2,573,366; levy 2 1-4 mills.

For the year 1913: valuation, \$1,177,079,420; appropriations and bond accruals, \$3,947,997.56; levy 3 1-2 mills.

For the year 1914: valuation, \$1,176,933,582; appropriations and bond accruals, \$2,924,411.05; levy 1.30 mills.

For the year 1915: valuation, \$1,187,164,328; appropriations and bond accruals, \$2,907,785.17; levy 2 1-2 mills.

For the year 1916: valuation, \$1,248,811,724; appropriations and bond accruals, \$3,163,426.81; levy 2 mills.

For the year 1917: valuation, \$1,335,220,527; appropriations and bond accruals, \$5,791,203.07; levy 2 1-2 mills.

For the year 1918: valuation, \$1,430,581,118; appropriations and bond accruals, \$5,736,847.32; levy 2 1-2 mills.

For the year 1919: valuation, \$1,664,448,745; appropriations and bond accruals, \$7,602,992.21; levy 3 1-2 mills.

For the year 1920: valuation, \$1,695,797,187; appropriations and bond accruals, \$6,835,536.64; levy 2 mills.

For the year 1921: valuation, \$1,739,835,008; appropriations and bond accruals, \$8,381,531.09; levy 1 mill.

Of the 1920 levy, one and one-half mills has been held illegal by the state supreme court. In each levy one-fourth mill was used for common schools and a like amount for highway construction.

Needles and pins will never rust in a cushion filled with coffee grounds.

MANY GUARDSMEN TO ATTEND CAMP

Training of Oklahoma Men
At Fort Sill Will Be
Best in History.

(By the Associated Press)
OKLAHOMA CITY, May 2.—When the Oklahoma National guard assembles at Fort Sill in July for its annual summer encampment, a larger number of guardsmen will be in attendance, and a more advanced course of instruction will be given than ever before in the history of the Oklahoma guard, according to a statement of Adjutant General Charles S. Barrett, head of the Oklahoma guard, today.

General Barrett said that approximately 3,600 officers and men of the guard would be at the encampment, whereas the total enrollment last year was 2,200. He said that this year both regiments of artillery and both of infantry would be at the camp. This is the entire strength of the guard in this state.

A school of instruction extending from July 5 to 10 will precede the general encampment. This will open on July 11 and end July 26, one day being allowed in this period for going to camp and one for returning. A similar allowance will be made for the school of instruction. "The guard this year will be trained on the theory that it has graduated from the 'squads right' and 'squads left' status," said an announcement issued at the instruction headquarters here, "and this year a more advanced course in actual fighting will be given."

Training for Fighting.
This course, according to the announcement, will consist during the first week of practice on the target range which will be conducted exactly as in the regular army. This includes bayonet fighting and the handling and throwing of grenades. The second week will be devoted to study of military tactics using both ball and blank ammunition. In this training an enemy will always be represented.

Each Saturday of the encampment will be devoted to a sham battle in which the various regiments in the guard will be pitted against each other in a scientifically ordered combat. All the modern tactics of war will be exemplified in these "battles."

This training program, according to the announcement, presents some features that are an innovation in guard encampments, not only in Oklahoma but the entire nation. One of these is a period of one hour each morning between 6:40 and 7:40 o'clock when the officers and enlisted men will be given special instruction by regular army men. The officers and men will be divided, the former being placed under regular army officers for special instruction in theoretical subjects. The men will be turned over to a staff of regular army non-commissioned officers who will instruct them in personal and camp hygiene packs and care of equipment. This will be followed throughout the day by practical applications of the subjects taken up in the officers' class. During this time the regular guard officers will be in command.

In order that the guard officers be prepared to meet the problems that will be presented at the encampment, a course of instruction has been carried on from the headquarters here since April 1. This consists of theoretical problems which are sent with answers to officers throughout the state. The officer is required to study the problem make his own solution and then read the solution as prepared at headquarters. The practical training at the encampment will involve the application of subjects treated in these lessons.

Setting Is Perfect.
Actual wartime conditions will be simulated at the camp. Moving targets representing enemies will make

SURE TO HELP SICK WOMEN

Mrs. Baker, So Much Benefited by
Lydia E. Pinkham's Vegetable Com-
pound, Anxious to Help Others

Lebanon, Indiana.—"I was completely run down from women's troubles and for a long time was hardly able to do my work. I had some friends who had taken Lydia E. Pinkham's Vegetable Compound, and they told me about it. I know what it has done for me and I recommend it to others, as I am sure it will be a great help to all sick women. It is a wonderful medicine, and I give you permission to use my testimonial and my photograph."—Mrs. EMMA BAKER, 310 S. East St., Lebanon, Indiana.

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subject. Mrs. Baker calls it "a wonderful medicine." If you are suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you as it has Mrs. Baker and many, many other women.

surprise attacks, and other unexpected situations created which require quick action. Emergencies which, if in actual warfare would prove hazardous, are to be thrown constantly in the way of guard officers, the announcement said.

In order to eliminate guardsmen who are unable to carry out this advanced work, a recruit camp will be established in which rudimentary training will be given. This is expected to be a very minor part of the encampment, since orders have been issued that no man may attend the encampment who has not been enlisted 60 days.

The block system, originated last year in Oklahoma and which has since been adopted in several other states, will be used again this year, the announcement declared. This consists of the selecting of one man from each company who is especially proficient in some feature of the guard's work. These men are placed in groups and trained in their particular line, the theory being that in this way every company in the state will have one man well trained in each branch of work, who can in turn train the other members of his unit.

A group of officers will go to Fort Sill Tuesday to locate the camp and make other definite arrangements for holding the encampment. One of the principal subjects to be taken up will be that of obtaining the use of regular army equipment at Fort Sill to be used in place of the guard equipment and material. This would be done to save the expense of moving guard equipment to and from the encampment, it was explained by General Barrett.

This committee of officers will be composed of General Barrett, Col. J. P. O'Neill, Oklahoma City; Brig. Gen. Charles E. McPherrin, Durant; Col. B. H. Markham, Oklahoma City; Col. E. N. Head, Muskogee; Maj. Earl Patterson, Okla-

homa City; Major C. H. Johnson, Pawnee and Capt. Stacy Knapf, Oklahoma City.

Colonel O'Neill is in general charge of training of all Oklahoma guardsmen and Captain Knopf is in charge of artillery training under him.

Candle Stick Craze Is Sweeping Nation U. S. Jewelers State

(By the Associated Press)
MINNEAPOLIS, Minn., May 2.—A candle stick craze is sweeping the country, according to statements recently made at the state jeweler's convention and concurred in the largest jewelry concerns here. Men prominent in the business declare there are more candle-sticks in American homes today than when the tallow spindle was the mainstay of home lighting.

In many of the homes, it is said, every source of illumination, from the low light in the bedroom to the large living room fixture is in the form of either candle-sticks or candle-effect standards. Candle brackets with electric light bulbs around the rooms, or as adornments on dresser, buffet and table, are very common, it is said.

Sensing the popularity of the candlesticks in modern day homes, it is said the companies manufacturing candles have turned out special designs and makes on the tallow article to still further add to the ornamentation. "One of the most staple articles" is the way one jeweler characterized the candlestick line.

TULSA—Preliminary plans for remodeling the Tulsa postoffice at a cost of \$50,000 have been sent to the post office department for final approval, according to Omar K. Benedict, postmaster.

Taste is a matter of

Deacons to Meet.

Regular monthly business meeting of deacons of the First Baptist church will be held this evening at 8 o'clock at the home of L. A. Ellison, 118 West Nineteenth street. All deacons are urged to be present.—W. C. Duncan, chairman.

Council Meets Wednesday

A meeting of the Workers and Teachers council of the First Baptist Sunday school was postponed Monday evening until Wednesday evening on account of the rain. The meeting will be held in connection with the regular monthly business session of the church Wednesday evening at the church at 8 o'clock.

NO! NAVAL HOLIDAY DOESN'T APPLY TO THIS BRANCH OF U. S. SERVICE

U. S. navy pigeon hatching new squadron of message carriers.

Maybe the naval holiday agreed upon at the Washington conference is being observed by some, but Ensign Carrie R. Pigeon just says, "Tish, tish," and goes right on increasing her squadrons. Disarmament doesn't seem to worry her in the least.

CHEFS GET HEADS TOGETHER SOON TO SEEK PLAN FOR SAVING HOTEL MONEY

CHICAGO, May, 2. — Chicago chefs are working upon plans to be presented to hotel men of the country that will cut down expenses, reduce waste to a minimum and cater more to what the public really wants. The chefs who are members of the Loyal Craft of the Progressive Culinary Association, an organization designed to work for the betterment of hotel service, are busy now writing papers on subjects of vital interest to hotel men and which may result in radical changes being made in hotel management. The papers will be discussed at the National Hotel exposition, here May 8 to 13.

They Face Problems.

Anton Negri, a Chicago caterer and president of the Loyal Craft, will present some of the problems that the hotel men face.

"One of the big obstacles we have to contend with is the intermediary between the 'real boss' in the hotel and the chef," said Mr. Negri. "The manager should learn the lingo of the kitchen. He should be in direct contact with it and know personally what the real conditions are. The chef gets the blame when he does not deserve it. The pound should be the standard weight. The hotel men of the country should unite and demand that Congress make that the standard. Then we would not have to buy carrots by the box and spinach by the bushel. There

are many sizes in boxes and no two bushels are the same in the quantity they contain. There should be just so many pounds in a box or bushel. When we get a pound of rice we know we have a pound of rice, but it is astonishing the loss a hotel sustains in a year by being compelled to buy by the box and the bushel.

Discuss Foreign Names.

"Can the fancy of foreign names be eliminated from menus?" is another topic that will be discussed during the exposition. Mr. Negri contends that it is impossible to absolutely Americanize menus, for the reason that the cooks have been trained according to the foreign terms.

"You could not eliminate the foreign names any more than a doctor could discontinue the use of Latin in his prescriptions," said Mr. Negri. "The chefs are trying to eliminate it as much as possible for the benefit of the public which wants to know definitely what it is eating."

"Why the hotel food is not like 'Home Cooking'?" will also be discussed. "It is a question of the climate," said Mr. Negri, "in hot countries people crave highly seasoned food. In Chicago the seasoning of food is mild. We might call it 'common sense' cooking."

ITALIANS ENTER PACT WITH TURK

London Fears That Secret Political Move Was British Stab.

(By the Associated Press)
LONDON, May 2.—The Paul Mall Gazette and Globe today said it has just learned that Italy, following France's example, has made a secret political agreement with the Turkish nationalist government at Angora, "behind Great Britain's back."
"Full details of this have only just been learned," says the newspaper, "although it has been suspected for some time. The consequences are likely to be serious."
The newspaper said Italy withdrew her troops from Scala Nova and Meanda Valley, as was reported in a Constantinople dispatch of April 18, and that the withdrawal was the result of an agreement with the Turks. The Turks were informed beforehand of this movement, it says, and the left flank of the Greek army was thus left practically unprotected.
The newspaper says the Italians in return received necessary consideration in the shape of concession in Meanda Valley, and the villages of Van, Bitlis and Erzerum.

Negro Sayer Said To Be Insane; Fled From Murder Scene

Murder charges against S. L. Creach, negro who is being sought in connection with the shooting to death near Steedman Saturday night of M. C. Speers, another negro, were filed in the court of Justice of the Peace H. J. Brown yesterday by Assistant County Attorney Hugh F. Mathis.
Sheriff Bob Duncan said today that impassable roads were making Creach's capture practically an impossibility. The negro refugee was reported, however, to have been seen in the Steedman neighborhood Sunday and is reported to be acting in a strange manner which gave rise to reports that he was insane.
After the shooting, which occurred at a negro schoolhouse Creach is said to have fled into the woodlands and could not be found.

HARDING TO PROSECUTE WAR FRAUD INSTANCES
(By the Associated Press)
WASHINGTON, May 2.—A request for a special appropriation of \$500,000 to be used in prosecuting war fraud cases was sent to the house today by President Harding. The budget committee explained that the fund would be used for intensive prosecution of all cases, whether civil or commercial, growing out of the war.

CALUMET
HAS RAISED A NEW STANDARD FOR BAKING POWDER
Because it's made in the most careful and scientific manner from absolutely pure materials that remain pure in the baking and insure wholesome, healthful food.
Because it possesses the greatest leavening power.
Because it is not affected by time or weather—it never loses its strength and never fails.
Because it is more economical—you save when you buy it and you save when you use it.
These are a few of the reasons why Calumet is the standard baking powder—the choice of millions—more being sold than of any other brand.
Try it—always buy it. Your grocer can supply you.

Farmers' Column

By Byron Norrell

I am still learning a few things about bees and hope one day to be in a position to tell folks just how to go some with this business. Prof. A. T. Watson went out to Hoot Owl ranch with me Monday afternoon and transferred a colony from an old box hive to a frame hive. It was not much of a job for Mr. Watson, but it would not have been so easy for me. The more I see of bees the more interested I become and the more I am impressed with the possibilities of this country for honey production. As I have remarked before, where is the sense in shipping honey from California to Ada when we can produce just as good stuff right here at home.

W. R. Riddle of Union Valley states that the green bugs which attacked his grain fields sometime ago have disappeared, destroyed by the parasite presumably, but they did considerable damage to a field of barley while there. Mr. Riddle also stated that he thinks the potato acreage in Union Valley will be about the same as last year, but he expects to increase his own slightly.

Both new and old beekeepers will be interested in a new bulletin by the Department of Agriculture, Washington, D. C., which gives a dozen or more measures to prevent bees from swarming. The bulletin is free for the writing of a letter to the department.

When we get on speaking terms with the other planets through radio the first message to reach Ada will read thus: "We want to subscribe for the Ada News. What's the price?"

Buying baby chicks is gradually taking the place of buying eggs, according to Lute Douge. People know just how many chicks they are getting in this way and are saved the trouble of trying to hatch the eggs.

Cowpeas a Sensible Crop.
Central Africa contributed the cowpea to the list of crops grown with profit in Southern States, and it has been worth untold millions to America. It is less choice of soils than most crops and will apparently do as well on sandy land as on heavier soils. In fact, a very rich soil is not conducive to best results. As a forage it is proving one of the best crops that can be grown in some sections, and it is equal to most any crop named in soil building.

Cowpeas should be planted a few days after corn is in and there is yet time for farmers in the Southwest to plant an acreage sufficient for their requirements for hay and seed. It may be planted along with corn or as a mixture with other crops such as the various sorghums, Sudan grass, soy beans or millet.

According to a late department bulletin the best method for the production of seed is to sow in rows about three feet apart, with the seeds from two to three inches apart in the row. Although a corn planter may be used for sowing in this way, the most practical method is to use the ordinary grain drill, stopping part of the grain cups so as to leave the rows about three feet apart and setting the drill the same as when sowing about two bushels of wheat to the acre.

When cowpeas are grown for forage or green manuring the seeds are sown broadcast or in drill rows six to eight inches apart. The grain drill set to sow about one and one-half bushels of wheat to the acre will be found most satisfactory. If grown for silage with corn, the corn and cowpeas can be sown in one operation, using the ordinary corn planter. If cowpeas are sown in corn at the last cultivation, the common practice is to sow the seeds broadcast at the rate of one to one and one-half bushels to the acre and cover them with a cultivator. Another method is to sow with a one-horse wheat drill at the rate of about forty-five pounds to the acre, sowing two or three rows of cowpeas between the rows of corn. Cowpeas and corn are sometimes sown thickly together for hay with excellent results, using about one-half to one bushel of corn and one bushel of cowpeas to the acre. However, when corn makes a very heavy growth cowpeas will not give very good results on account of the shade and lack of moisture.

The quantity of seed to be sown to the acre varies according to the method of sowing. With rows twenty-four to forty inches apart, about thirty to forty pounds of seed to the acre will be required. When sown broadcast for hay, green manuring, or silage, about ninety pounds of seed to the acre will be ample.

OLD MEMBERS OF COTTON GROWERS BOARD RENAMED

(By the Associated Press)
OKLAHOMA CITY, May 2.—Nominating conventions held yesterday in the ten districts of the Oklahoma Cotton Growers Association to select candidates for the board of directors resulted in every member of last year's board being nominated for re-election, it was announced here today by C. L. Stealey, secretary. The election will be held May 22.
"The action of the members in re-nominating every member of the old board of directors is evidence of confidence in the present board," said Mr. Stealey. "It is further proof of approval of the marketing plan adopted by the management of the association this year."

New Change Is Made In College Diamond Program Coach Says

Again there has been changes in the baseball calendar of East Central Teachers College. Instead of playing Shawnee Baptists today as announced, the series of two games with that school will be played on Tuesday of next week. This postponement was due to the fact that the MayDay festival is scheduled for today.

Only games this week are those scheduled for Wednesday afternoon, May 3, which will be played with Edmond's Teachers college. These games were to have been played the latter part of the week, but on account of the boy scout pageant scheduled for that time, the games will be played tomorrow.

This leaves six of the best games of the season for the closing week of school. Tomorrow's athletic bill calls for a double-header, the first for 1 o'clock and the second for 3:30.

FAIR WEATHER IS STATE'S HOPE AS CLOUDS DRIFT BY

(By the Associated Press)
OKLAHOMA CITY, May 2.—The fair weather flag was flying at the United States weather bureau here today and officials held out the hope that the storm clouds which have been hovering over the state since Easter Sunday would lift by tomorrow. Fair weather and higher temperatures for tomorrow, though today continues unsettled, was the forecast.

Only two stations in the state reported more than an inch of rain during the 24 hours ending at 7 o'clock this morning. They were Chandler with 1.51 inches and Newkirk with 1.15 inches.

The bureau announced the north Canadian was falling at Oklahoma City, the crest of nearly 12 feet having been reached yesterday.

OFFICERS REACH END OF WITS IN MURDER MYSTERY

(By the Associated Press)
HOUSTON, May 2.—Authorities who have been investigating the death of Miss Gertrude Hanna, whose body was found nearly a week ago in the unoccupied parsonage of a church here, today still remained without a clue as to the method of the girl's death and the case was virtually relegated to the realm of unsolved mysteries.
Possibility of a clue remained, however, with the report expected today from the Columbus Memorial hospital as to the chemical analysis of the young woman's vital organs.

PRINGEY FILES CANDIDACY FOR ANOTHER TERM

Joseph C. Pringey, representative in congress from the Fourth district Monday filed his candidacy for a second term. Pringey is a republican and his home is at Chandler, Miss. Pearl Dunham and J. S. Twyford, both Oklahoma City republicans, filed as candidates for representation from the Fifth district. William P. Thompson of Vinita seeks to land the democratic nomination for congress in the First district.

E. B. Howard of Tulsa, former state auditor and former representative in congress from the First district, filed his candidacy for the democratic nomination for governor. J. P. Irby, Nelson democrat, is a candidate for state auditor. Wayne L. Dickey, Tulsa republican, is a candidate for state treasurer.

Association to Meet.

The Cemetery Association will meet Wednesday afternoon at 4 o'clock in the usual place.

2 COLLEGES SEND LIST OF ENTRIES

Interest Mounts High For Quadrangular Contest Here Thursday.

Entries from two colleges received by Coach M. Z. Thompson this week as the date for the first annual quadrangular meet approaches. Durant Teachers and Shawnee Baptists have announced their contestants and those from Oklahoma City College were expected today or tomorrow. The meet will be held on the college field Thursday afternoon, according to present plans.

A squad of 15 men at the local college will also participate. Coach Thompson, who has devoted most of his time to baseball, stated today that Harry Schienberg, a former college star athlete and coach, has been of great assistance in giving the local men much information and that the track team under the leadership of Captain Martin is rounding into good form.

Thursday's meet was postponed from last Friday on account of the weather. This gave the local men a chance for additional work-outs, which they needed due to forced inactivity. Durant Teachers have already won a dual meet from Austin College, while the local college won a practice meet from the high school recently. Shawnee Baptists have several men who have starred in other meets and Oklahoma City College is re-inforced by four former Oklahoma City high school track stars.

Those entered are:

Durant Teachers
100-yard dash, Cobb, Morrison, Bates; 220-yard dash, Cobb, Morrison, Bates; 440-yard dash, Cobb, Harris, Bates; half mile, Craig, Helbach, Rice; mile, Roberts, Gladney, Rice; two-mile, Roberts, Gladney, Rice; high jump, Crawford, Witt, Gibson; broad jump, Witt, Gibson, Boyett; pole vault, Gibson, Goodman; 120-yard high hurdles, Gibson, Goodman; 220-yard low hurdles, Cleveland, Johnson; shot put, Boyett, Helbach; relay, Gibson, Witt, Harris, Bates, Helbach, Cobb. With Coach Bell 16 men will be here from Durant.

Shawnee Baptists.
100-yard dash, Parker, Randels; 220-yard dash, Parker, Randels; 440-yard dash, Parker, Baggs, Beck; half mile, Wilcoxson, Beck; mile, Wilcoxson, Beck, Haynes; two-mile, Haynes, Beck; 120-yard high hurdles, Hooper, Randels; 220-yard low hurdles, Hooper, Randels; broad jump, Randels, Brett; high jump, Beck and Hooper; pole vault, Carl White; shot put, McGee, Beck; discus, McGee, G. Randels; relay, Haynes, Baggs, Beck, Hooper, Randels and Parker. This makes a total of 12 men, including Coach Ivan Grove.

East Central.

Although the events in which they will take part were not compiled the following men will constitute the local college team, with several others not mentioned contemplating entering the meet:
Neely, Martin, Riddle, Stephens, Hacker, Robertson, J. Weston, D. Weston, Keltner, Waner.

SENATE CONTINUES ITS HEARING UPON NAVY

WASHINGTON, May 2.—The senate appropriations committee continued detailed hearing today on the \$251,000,000 naval bill for 1923, which was passed by the house, and took up Secretary Denby's request for an increase aggregating \$20,000,000. The hearings were expected to continue about two weeks with naval chiefs submitting detailed statements.

Have You Made Your New Summer Dresses?
YOU can find out to-day what styles will be worn this Summer by consulting the Summer Butterick Quarterly now on sale. Don't wait till the weather's hot!
Even if you've never sewed before
you can make a dress like this one—with its fashionable panels, bell sleeves and boat-shaped neck. The Deltor, enclosed with each new Butterick Quarterly, shows you by pictures exactly how to make it from start to finish.
SUMMER MATERIALS
illustrated on the cover and in twelve full-color pages
Gaily colored cretonne—the very kind your draperies are made of—is a new favorite, and the Summer Quarterly will show you how to use it. There are also color pages of morning dresses, both gingham and printed linens; color pages of afternoon dresses and Summer evening frocks. Many afternoon dresses have the new fabric trimming of flowers and fruits and latticed designs. Grown-ups and flappers have equal rights to the cascade draperies, made in silk crepes, crepe de Chine, etc. As for the youngsters and flappers, many pages are devoted to them, four in full color. Flappers are given full recognition in the Summer Butterick Quarterly.

Stevens - Wilson Co.
